

ACTIVITY 13

DIRECTIONS: Fill in the chart using Y for yes or N for no as you solve the puzzle.

A mom, a dad, a grandmother, and a grandfather all had dinner together. Find out what each person ate.

1. Grandfather has no teeth, so he had broth.
2. Dad liked his food so much he had a second bowl.
3. Grandmother never has the same thing two nights in a row, so tomorrow she will have a burger.

13.

				
	N ₁	N ₂	N ₃	Y ₃
	N ₁	Y ₂	N ₂	N ₂
	N ₁	N ₂	Y ₃	N ₃
	Y ₁	N ₁	N ₁	N ₁

Clue 1 states that the grandfather has no teeth, so he had broth. The only food that could be broth is in the first bowl. Clue 2 states that Dad has a second bowl of food. The only other bowl is the second from the left, which must be his. Based on Clue 3, Grandmother never has the same thing two nights in a row. Since tomorrow she'll have a burger, that means today she had a hot dog. That leaves the hamburger for Mom.
