NAME	PET
Patti	dog
Annette	bat
Scott	fish
Kathy	parrot

Annette's and Kathy's pets must be the bat and parrot (these are the only two pets that cannot swim) (1), but we don't know which person owns which pet. Scott's pet is the fish since the clue refers to "his" and Scott is the male (2). Kathy owns the parrot since it is the only bird—a bat is not a bird, it is a mammal (2). If Kathy's pet is the parrot, then Annette's pet must be the bat. If Annette's pet is the bat then Patti's pet must be the dog.
