

Deductive Reasoning

The story below has 6 parts, but the parts are not in the correct order. Examine each of the parts, then number the boxes **1-6** in the order they take place in the story.

The dog jumped at the skater as he skated by.

Beth saw a boy holding 5 balloons while skating along the sidewalk.

A large brown dog heard the boy coming down the sidewalk.

When he hit the ground, two balloons slipped out of his hand.
