

EXPLAIN THE EXCEPTION

The following groups of words contain one member that is an exception to the class. Explain how the similar words are alike and how the exception is different.

EXAMPLE:

area, measurement, perimeter, volume

Measurement is the exception. The other words

represent things that can be measured. Measurement is

the act of determining length, weight, volume, or time.

C-223 factors, multiplication, product, quotient

C-224 climate, continent, temperature, weather

C-225 character, force, might, strength

C-226 order, sequence, ranking, value
